

Introducing BFT replacement parts

If you use it, we supply it.

What makes AccuStream parts better?

Necessity. The only way our parts and consumables could outsell the OEM options was to be better. So rather than copy them spec for spec, we improved them through rigorous engineering and testing. Then, we offer products at a fair price; a better part need not be a costlier part.

Ordering information

Kits

Hypertherm part number	BFT part number	Kit description
1-18293	CP022100/220	HP Seal Kit includes 1 each: bearing bush (1-16388), sealing ring (1-16392), back ring (1-16387), quad ring (1-18269)
